

Wall Dispenser 2-Components

Keep your production clean...

... with Wolfangel wall dosing devices for resin and hardener. The 2-component wall dosing device enables precise and clean dosing and is available for UP and EP resins. The devices are pneumatically operated and available with 500ml, 250ml and 25ml glass cylinders.

This device is intended for wall mounting. The desired dosing ratio can be infinitely adjusted on the dosing lever.
